Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

1) Responsive to communication(s) filed on 09 January 2004.
 2a) This action is FINAL. 2b) This action is non-final.
 3) Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Specification

1. The disclosure is objected to because of the following informalities: the specification has several errors and should be reviewed in order to have proper idiomatic English, an example of such an error occurs in the abstract, line 4, "proving cover" should be changed to --providing a cover--.

Appropriate correction is required.

Claim Objections

2. The claim is objected to because of the following informalities: the claim has several errors and should be reviewed in order to have proper idiomatic English, an example of such an error occurs in line 3, "available in seam" should be changed to --with a seam--. Appropriate correction is required.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. The claim is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The claim limitations define "a hood" and "a protective cover" which appear to define the same element. Is the "hood" providing "protective cover", or are the "hood" and the "protective cover" two separate elements? For purposes of examination the "hood" and the "protective cover" are considered two different elements.

The claim recites the limitation "the inwall" in lines 8-9. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

6. The claim is rejected under 35 U.S.C. 102(b) as being anticipated by Budrow (6,105,356). Budrow discloses handle 16; fixed jaw 62, 80, 82; movable jaw 18; linkage slab 14; module board 80, 82; separating boards 80, 82; seam 60; plastic hood/protective cover 54; linkage side is adjacent element 68 in figure 5; built-in edge 58; inwall of hood 54 is the part of hood 54 that is juxtaposed elements 80, 82; bulge strip is the part of hood 54 that is juxtaposed elements 80, 82; notches are the 90-degree areas juxtaposed the bulge strip and the top of the T-shaped hood 54.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Nordlin is cited for hood 196.
